28 July 1969

MEMORANDUM FOR THE RECORD:

SUBJECT: Briefing by [REDACTED] OC/SCD, on the Programming of MAX II, MAX III, and SATELLITE TRANSMISSION FACILITIES, 1430 hours, 28 July, Room 2D03, Headquarters Building

25X1A9a

1. The briefing was presented to the OC/Career Management and Training Staff primarily to bring the Staff up-to-date on the present, intermediate, and long-range plans and to establish a time frame for specific training and personnel requirements.
2. The discussion was most interesting and while it was emphasized that many revolutionary changes are inherent in the hardware and operating procedures of the new systems, it appears that there will be no impact on the Building Planning Staff.
3. I plan to follow up with a more detailed study of available reports, particularly the long-range projection of these three systems, and also the ACT which was briefly referred to in the discussion.
